#### OBJECTIVES OF THE ASSOCIATION

- To bring together specialists concerned with the design, construction, fabrication, operation and maintenance of railway tracks.
- To foster collaboration between railways, suppliers of track components and equipment, and those providing services in the fields of design, consultancy or contracting.
- To seek participation of government and semi-government departments and bodies, universities, institutions and research facilities with a view to encouraging the optimisation of railway operations especially in relation to railway track performance and economics.
- To initiate sponsor and / or co-operate with others in research development and evaluation of railway track and its components.
- To sponsor the development of realistic standards in respect of track, its components and the practices employed in construction, operation and maintenance.
- To conduct meetings for the purpose of bring together entities interested in railway track and its associated disciplines amongst others of traffic and communications and to provide a forum for the exchange of ideas and information therein.
- To disseminate information to and to seek technical and other data from members and other interested entities concerning the progress of research and new developments and to provide assistance in the evaluation of performance and economics of railway track and components.
- To encourage all other such activities as well as promote the development and improvement of railways particularly in respect of railway track.
- To provide for the effective management operation and development of the association.

By completing and submitting this Membership Application, I am in agreement that the above details be made available to RTAA Members and such related bodies as shall be determined by the Management Committee, in accordance with current Privacy Legislation.
